## North Berkeley

AVAILABLE BOXES:

LARGE BOX

SMALL BOX

UNAVAILABLE BOXES:

INSTALLED BOX

SPONSORED BOX

### What is Streets Alive?

Streets Alive! is a project of the Earth Island Institute working towards restoring our urban areas through works of public art. Through partnerships built between the community, local artists, and businesses Streets Alive! works to use art as a medium in which to communicate issues of sustainability, education and cultural diversity.

### Why be a Sponsor?

- Give back to your community by beautifying our streets
- Strengthen our neighborhoods in collaboration with local businesses, city government and artists
- Decrease rates of local vandalism
- Receive positive publicity. Your name will be recognized on the box itself, on our website and in press events/materials

### How does it Work?

- 1) Choose a utility box to sponsor
- 2) Select an artist from our approved portfolio
- 3) Streets Alive! collaborates with you, the sponsor, and your chosen artist to design a work of public art
- 4) The design must then be approved by our Visual Arts Selection Panel, the Public Art Committee and the Civic Arts Commission
- 5) Streets Alive! works with a local contractor to install the art onto the boxes
- 6) Streets Alive! celebrates the new artwork through an unveiling event and press coverage
